PROFILE

Engineering professional in project planning, technical program management, industry engagement and engineering operations related to manufacturing, technical education and research. Experience in coordinating cross functional projects, forming partnerships with education and industry and providing technical training and assisting business growth through strategic planning and marketing. Also at integrating engineering, education and industry to build workforce skills and implement technology based projects. Currently pursuing an MSc in GIS for Environment and Development, with interests in engineering project management, spatial analysis, and sustainable infrastructure.

PROFESSIONAL EXPERIENCE

FaboTronix Limited

Engineer (Planning, Marketing & Training)

Nov 2025 – Present

Dhaka, Bangladesh

- Delivered 10 technical training programs and 20 workshops in IoT, Robotics, and PLC, training 150+ students.
- Expanded institutional engagement by reaching 800+ students across 35 polytechnic institutes, recruiting 150+ industrial attachment participants, and establishing partnerships with 10+ industry organizations.
- Supported business growth through strategic marketing, technical content development, and student acquisition campaigns.
- Contributed to product development, R&D, laboratory setup, and cross-functional engineering operations.

Biomedical Science and Engineering Research Center (BIOSE)

Administrative Coordinator

Apr 2024 – Nov 2025

BRAC University

- Coordinated research operations, including procurement, logistics, documentation, and stakeholder communication.
- Supported project execution by collaborating with researchers, academic leadership, and external partners.
- Managed administrative processes to ensure efficient delivery of multidisciplinary research initiatives.

EDUCATION

Jahangirnagar University

Master of Science in GIS for Environment and Development (Ongoing)

Aug 2025 – Present

BRAC University

Bachelor of Science in Electrical and Electronic Engineering

May 2020 – May 2025

Jalalabad Cantonment Public School and College

Higher School Certificate

Jun 2017 – Jul 2019

Jalalabad Cantonment Public School and College

Secondary School Certificate

Jan 2015 – May 2017

PUBLICATIONS

Transformation and Future Trends of Smart Grid using Machine and Deep Learning.

PROJECTS

Performance Monitoring and Analysis for Predictive Maintenance of a Circular Knitting Machine May 2025

Final Year Design Project, BRAC University

- Developed an IoT-enabled predictive maintenance system integrating ESP32, industrial sensors, and machine learning for real-time condition monitoring.
- Built a dashboard to monitor critical machine parameters and support predictive maintenance.

Technologies: Python, MATLAB/Simulink, ESP32, IoT

Safe Fall Dataset, BIOSE Research Center Nov 2025

Project Lead

- Led the development of a human fall detection dataset using sensors and cameras for AI-based healthcare applications.
- Coordinated project planning, hardware setup, and data collection.

Technologies: Python, Sensors, Data Collection

SKILLS

Core Skills: Project Coordination | Technical Training | Industry Collaboration | Technical Documentation | Presentation & Communication

Technical Skills: MATLAB | PVsyst | HOMER | Proteus | Python | ArcGIS | Google Earth Engine | Robotics | IoT

Tools and Productivity: Microsoft Office Suite | Google Workspace | Notion | Canva

LEADERSHIP & VOLUNTEER EXPERIENCE

Director, Graphics and Photography Dec 2024 – Jan 2026

BRAC University Electrical & Electronic Club (BUEEC)

- Directed the club's visual branding and promotional content for technical and student engagement events.
- Designed event materials and coordinated media coverage to enhance communication and outreach.

Healing Bangladesh Aug 2024 – Feb 2025

Lead Field Volunteer

- Coordinated volunteer activities and supported field assessments during community rehabilitation initiatives.
- Assisted with team coordination, logistics, and resource distribution.

Hopelamp May 2024 – Feb 2025

Field Volunteer

- Supported community outreach activities through event coordination and volunteer engagement.
- Assisted in organizing and distributing resources for community development programs.
